RE: Tree Health Report - 38447 Maple Street

Dear Planner,

As requested, I am writing this letter to provide you with my findings regarding the health status of the two Douglas Fir trees located at 38447 Maple Street.

My assessment revealed that both trees are dead. Removal and replanting is the only suitable form of mitigation at this point. Retention of the trees or any portion thereof would create a potential hazard to the surrounding homes and their occupants.

Should you need any further information, please do not hesitate to contact me.

Sincerely,

Chris Whitman
