Hi Rebecca,

The mobile unit operator reached out to me due to the inspector Christy Yeoumans, EH inspector for Sandy area being off.

The operator is currently licensed in Multnomah County, and has submitted a license application for their mobile unit to us.

They have taken the steps with us to become licensed. Approval of license will happen once Christy is back.

We do have reciprocity with licensing from other counties in the State, so a licensed Multnomah County mobile unit can operate in Clackamas county on a temporary basis, on a permanent basis like this situation we have them get licensed with us. Which the operator has submitted for.

Was there something in particular you needed from me?

Thanks,

Brent Johnson, Sr. Environmental Health Specialist

Thank you Brent... this works for us for now. If he could just follow up once completely approved by Clackamas County, that would be great.

Thank you again Brent... appreciate it!!
