Hi Rebecca,

It looks like they stated that in the narrative that they will comply with the broadband requirements, so I think the only thing we need to have is:

SandyNet shall receive a set of PGE utility and street/sidewalk lighting plans to design and return a SandyNet broadband deployment plan to overlay in the dry utility shared trench. SandyNet will provide requirements for layout and acceptable materials for the developer/contractor. SandyNet should be contacted after installation of infrastructure and coordinated for on site inspection before backfilling the common trench. Please send plans to Greg Brewster for SandyNet design to gbrewster@ci.sandy.or.us, 503-953-4604. On site contact for general questions and inspection will be Ron Yow, ryow@ci.sandy.or.us, 541-514-9771.

Thanks,
Greg Brewster
