**3. ADJOURN**

## Staff Report

---

**Meeting Date:** December 11, 2018

**From** Kim Yamashita, City Manager

**SUBJECT:** Informational Meeting - Waste Water Treatment Plant Design Update

---

**Background:**

At the direction of the City Council, staff engaged the services of Murraysmith, Inc. a Portland firm that specializes in engineering design of Transportation, Water, Wastewater and Stormwater systems. The design phase will take many steps, and input from multiple agencies as the process moves forward. There are established timelines with DEQ that we are following and multiple steps along the way to provide for public involvement. This work session is designed as informational only as we are only in the nascent stages of the design. DEQ has met with Murraysmith and has seen and commented on the initial draft of the project. This is an opportunity for Murraysmith to provide the council with the initial concepts, path forward and anticipated decision points. We will strive to keep you well informed as this process moves forward.

**Recommendation:**

None, presentation only

**Code Analysis:**

None

**Budgetary Impact:**

None at this time
