I. Envision Sandy 2050 Process

The City of Sandy is launching "Envision Sandy 2050," a citywide effort to update the Sandy Comprehensive Plan that will help guide land use decisions over the next 20 years. The first step in the process is to create a community vision that reflects what community members enjoy and want to preserve about Sandy, and what they would like to see changed in the future. The Comprehensive Plan will consist of broad goals and policies to implement the vision and guide future growth and development.

Beginning in March 2022, City staff led outreach and engagement efforts to better understand the community's vision and priorities related to Sandy's future. As of July 2022, the *Envision Sandy 2050* process has touched more than 1,000 community members through Community Conversations, Community Events, an online survey and the *Sandy Speaks* webpage. The purpose of the outreach effort was to ask the following types of questions:

- What do you love about Sandy today?
- What do you want to see in Sandy in the future?

While there was variation in how these broad questions were posed across different activities, they are designed to identify common themes around the aspirations and concerns of a community, which are a key piece to the development of a community-wide Vision Statement for the Comprehensive Plan.

This memorandum provides an update on the various outreach efforts and summarizes the preliminary key themes that are emerging from these activities. Note that the visioning process is ongoing and set to conclude by the end of summer 2022. This memorandum will be updated to reflect final feedback by September 2022. A compilation of raw community feedback can be found in the Appendix.

II. Outreach Activities

Community Conversations

To reach a wide spectrum of Sandy community members, project staff and members of the Community Advisory Committee (SAC) facilitated community conversations with local groups, clubs, committees, and organizations in Sandy.

A community conversation is a structured discussion about a range of high-level topics. Community conversations are an exercise in "going to where the people are" i.e., they are usually held or conducted where people already gather or through channels which they receive information. While most community conversations were facilitated by City staff and CAC members, a "Community Conversations Kit" was available on the project website for anyone to download and conduct among their own networks.

Over the course of five months, twelve community conversations were conducted with the following groups, engaging approximately 85 community members in Sandy:

- Chamber of Commerce
- AntFarm Youth Services
- Parks and Trails Advisory Board
- Economic Development Advisory Board
- Sandy Police Department
- SandyNet Advisory Board
- Library Advisory Board
- Planning Commission
- Group of Sandy High School staff
- Group of local developers
- Group of Spanish speakers

Community conversations were held both virtually and in-person, and the discussion questions followed the same questions posed through an online survey. These discussions helped extend the reach of the online survey, which ran concurrently through the spring and early summer. Notes from discussion leaders were submitted to the project team for compilation with other feedback mechanisms.

Sandy High School Youth Engagement

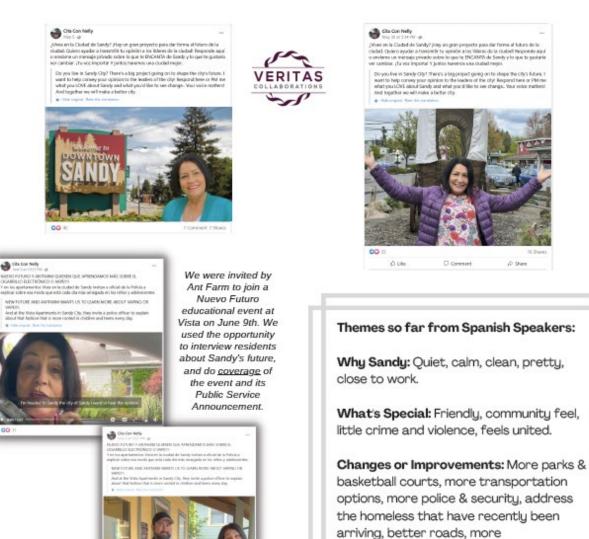

During the week of May 16th, the project team held community conversations with multiple Sandy High School classes, including Leadership and Advisory classes. These events engaged over 250 students in group discussions and interactive polling. Students learned about civic engagement, community development, and the City's land use planning system, and shared their ideas for Sandy's future. The CAC's youth representative Amaya Peralta supported the project team in taking notes and representing the advisory committee.

Outreach to Spanish Speakers

To reach Sandy's Spanish-speaking community, the project engaged with Nelly Rodriguez, talk show host of the popular *Cita con Nelly* news media outlet. Outreach to the Latino community was conducted through a grassroots process that leaned on wide-reaching social media posts, informal gatherings at the Vista Apartments, St. Michael's Catholic church, and community members connected to Todos Juntos and Olga Sanchez at the School District. The project team also connected with Spanish-speakers from NW Family Services who provides services at Vista, as well AntFarm's Nuevo Futuro program. Regular Spanish-language project updates have been posted to Nelly Rodriguez's popular *Cita con Nelly* Facebook page.

activities/amenities for families, a community pool, more signs in Spanish, more Spanish library books.

Community Events

Throughout the months of May and June, the project team staffed an *Envision Sandy 2050* booth at multiple Farmers' Markets, the Longest Day Parkway event, and the Sandy Mountain Festival. Tabling at community events provide a unique opportunity to reach many people in one place. Materials for tabling were designed to solicit community comments, create project awareness, drive people to the project website, and describe the opportunities to get involved. City staff and members of the CAC helped staff the booth. In addition, Nelly Rodriguez and the Veritas Collaborations team conducted more targeted outreach at the Sandy Mountain Festival through intercept surveys in English and Spanish.

Online Survey

Running concurrently with outreach through Community Conversations and community events, an online survey opened in early March 2022. There were 137 responses to the online survey, accessed through the *Sandy-Speaks* project webpage, which received over 450 visitors to the site. The survey was promoted through the Sandy Source newsletter, social media, community listservs, as well as through business flyers and door direct mailers that reached all Sandy residents within the UGB. All public-facing materials developed for the project during this phase directed community members to the online survey.

The raw data are included as an Appendix to this document. Note that this is not a statistically valid survey and is only meant to qualitatively explore themes regarding the future of Sandy.

	#	What should we preserve or enhance? the fittle forests and greenery that we have left because of stupid construction	What would you like to see for Sandy in the future? the building and the growth of this gross community
		How close we are to Mt. Hood and the views we have of it.	Homelessness
			I would like to see the apartments and unnecessary buildings that take over beautiful fields disappear. Gas stations, fast food.
		Fun environment. Nice to drive around and do activities with friends	Apartment buildings. Sandy is seems to be getting really crowded and if more apartment buildings continue to be built then Sandy will be seems to associed
		Fun environment. Note to drive around and do advites with mends The nature and wildlife and forests	Uneeded buildings to make the population of the town bigger and feed into the demands of living here
		I like the current size of the town.	Continuing to expand the town. Sandy was a small town but it keeps growing, even though most of the ho7sing still isn't being inhabited.
		Baseball field The one in the picture	One way roads Traffic
		None	Everything
		It is green and you can see the mountain. Programs are offered to youth by AntFarm	Rednecks. We need to go more green. Nothing
		The amazing sports teams	ldk .
		It feels small Pretty open	People Garbage
		The food carts The movies	People destroying land to build Random RVs that are burned or trashed on the side of the road
		The Scenery	Nothing
		I like how it's close to the mountain Its downtown is nice and it is fun to go hangout with friends	Homeless coming from Portland, large amounts of housing Nothing
		the community support that keeps the city together	Something that I want to see disappear is the empty buildings that seem to have no purpose along the strip in downtown. Those should be filled with small businesses.
		How close it is to mt hood	I've been noticing a lot of homeless people recently and I would like to see them go back to Gresham
		My favorite aspect of sandy is the scenery. I also love that we have small businesses.	The amount of people. Sandy has grown a lot and you love to see it but at some point the amount of people in this town will just be overwhelming
		I like how it's small and easy to walk around without anyone else worrying you or getting in your way. The view point or meinig park	garbage Nothing
		food trucks	people and growth and destruction of nature
		The nature and joes donuts i'd like to see the building and growth NOT continue	The rising population causing us to turn into a mini portland The growing aspect of the town. I think there are too many people in the town because the town is too small to fit them all.
		Park building and upkeep	The increase in traffic, fast food, and developments.
		I would like to see more small businesses. We don't have a lot of it, but I hope we continue to have locally owned business.	The growth. Sandy is growing to fast and a major reason is apartment buildings Something that worry's me is
			The influx of the amount of homeless people and drug addicts on the street, making public areas progressively less safe. You used to be able to walk anywhere without having to worry about getting mugged or things like that. But now you have to be careful about
		More activities, an arcade or bowling etc Sandy mountain days	everything. One way roads
		Having public areas that are safe for people to relax and hang out with friends.	Nothing
		More baseball A thriving community and something to happen about the traffic running through it	Everything Carbon footprint and lack of affordable groceries.
		Nothing Community events	The amount of gas being used Nothing
		Programs being offered to youth	The kids are soft
		Nothing Huge turnouts for events/games	Amount of people Sports
		Church	The people
		Clean city Community support	3 cops The traffic
		More food variety	The homeless and rising prices security
		The businesses and schools I hope sandy doesn't get to big but I hope to see new business like restaurants, shops, etc	security The roads
		non influenced and continued support Nothing	Things in town that worry me is the traffic! Very annoying, and when the proud boys held a rally in town that was very alarming. Homeless
		I would love to see the small businesses thriving.	New and you get people polluting
		I would like sandy to stay small and not grow into something like Gresham I would personally like to see some more land mark added to the small town. Not major ones but some that	sketchy people
		would be remembered '	Some people nothing
		Not sure it's honestly pretty small so I don't really see it going anywhere in 50 years	To see if the town changes for the better.
		it not like my opinion will be listened to and im not gonna stay here I would like all of the farm land and fields to stay the same.	The prospect of it being small and unique. The memories
		I like the flower baskets and the feeling of knowing most people. I would hope it continues to feel like a small homev town.	The possibility of minorities having more to do in town weather it be arcades just so that teens and younger people don't resort to drups like they do now.
		The people	The aspect of a nice, semi-urban town with nice, safe public areas.
		Sandy mountain days I would like to see the town stay more rural.	Baseball Seeing it flourish
		Baseball The simplicity	Nothing How the town will adapt
		Nothing	Nothing
School Students (additional		Community parks. The food restaurants and food carts	We are getting better Friends
Community Conversation)	56	Not thing	McDonald's in sandy
		ldk amount of people	Nothing. The things to do
		The nature Nothing	The growing population and businesses Seeing new people
		The people	developement
		The amazing people	Nothing Something that excites me in this town is how connected the students are with the community I think that we should make sure that
		All the little restaurants and shops I want them to stay Nothing	clubs at the high school are able to interact with the town.
		Something that I would want to stay the same is the pool. I think that we need to bring it back. It was a very influential part of our town and it was very nice for elders and children. It also held the waterpolo practices	
		and without it they have to travel to Barlow which is inconvenient. I would like the community accepct	Smarter new people that will help the town thrive we'll get more coffee shops
		The nostalgia of the city	The schools
		the pretty lights during the holidays Joes donuts	I'd like to change the population the city is small so when there are big crowds it is just total chaos the amount of oas stations that are so close together
		The land has a beautiful landscape and can escape the crazy city we're a gateway to the mountain	I think the city should stop expanding so much, we are ruining the natural beauty Probably more countrysides
		Jonsrud Viewpoint	apartments
		The beautiful views	I would like for less traffic I think I would change some streets in sandy since some of the roads are badly made, and how people get hurt and killed on
		I like how close the community is.	Think involucing some sines are and since some or the roads are bady made, and now people get hart and kned on certain roads and is very dangerous Less littering
		Joe's donuts definitely! :)	Less littering Nothing
		Place I grew up most my life, and I've had many of family members here. A lot of memorable landmarks and places in sandy	less potholes in the road
			More roads.

	#	Why did you choose to live/work in Sandy?	What should we preserve or enhance?	What would you like to see for Sandy in the future?
	-		Small town	Less racists people
			the landscape	Improve the traffic
			i love the tickle creek trail	crossing the scary road on dubarko! it needs a pedestrian bridge or a safer way to cross for walkers and bikers
			The lush greenery all around and throughout the city!	Less racism and exclusionary/hateful behavior
			Promote small businesses	Less excessive right wing protests
			the community building and more farm lands	new comers
			i like the consistent food options	the community
			Food carts and other low cost dining options. Low cost busses! (Though more routes/more frequent routes	
			would be awesome!)	Traffic on 26 increasing so that it inconveniences both residents and people passing through.
			Promote small businesses	Reduce the horrible trafic after school
				I would like to see crime rates go down and I wanna see smaller houses stop and start building houses vertical instead of
			the community and history	horizontal, it saves room and trees.
			i wish for the housing to stay the same instead of deforestation	Less people in sandy
			Free street parking!	Fix the racism
			The high school	Fix the growing homeless issue
			the growth of small businesses	The horrible trafic after school
School Staff			More diverse food options!	Crime rates and prices
	37		The scenery	Getting bigger
			The small businesses	Less racist, homophobic people
			The amazing fields at the high school	Food
			It used to be the pool but now it is Sandy River or Joes or Tai home	The great community we're building
			Small town	Hopefully we will be more eco friendly and things will open up more
			nature	Staying the same small town
			More food places of different cultures and more things to do	more businesses, we need a boba place
			I think there should be more town summer activities	
			7 eleven	
			Kindness. I want to see prices go down, people helping people and all the same delicious restaurants.	
			To stay small town

		To be close to family	AntFarm Program and place	We need more knowledge and respect of other cultures
		Community	SandyNet	We are too homogenous
		Concerts in the park	The country feel	Gridlock traffic
		Proximity to outdoor activities	Close to Portland, right by the mountain	People might not stop for gas in the future-what will they stop for in the future?
		Available housing	Access to outdoor recreation and mountain biking	Build better road networks for better connectivity
		Small school district-change can happen	Living well with the land-enough pockets of people that "live with the land"	Roads have no shoulders
		Job opportunity	Historical roots of farms and old economies, generational lineage	Pedestrian and bicycle connectivity is poor
		Closer to nature	Small business owners are sprouting up; rise in restaurants and breweries	Upgrading school buildings
		There was people and a need	Thriving downtown corridor-businesses are starting to cluster	Support digital access expansion
ntFarm Advisory Committee	8	Access to a community	Façade Program really changed main street: touched 45-50 buildings, adding architectural details	SandyNet doesn't access all apartment complexes and manufactured home parks
		Small-town feel	Library has amazing programs; the space is amazing	Lack of education and coordination and connection of information about Sandy services and community organizations
		Impact that anyone can have in the community is guite intimate	Longest Day parkway	Safe access to parks
		A community of acquaintances	Yoga in Meinig Park	Homelessness

ONLINE SURVEY (AS OF 7/11/2022)

Q1 Why did you chose to live in Sandy?	Q2 What makes Sandy special today? What should we strive to preserve or enhance?	Q3 What about Sandy would you like to change in the future? What can improve?	Q4 Is there anything else you want to share about the future of Sandy?
The small town feel, the rural atmosphere and the the ability to live in the country but only minutes from town	Sandy is special because its small. It has a boufque, little Sisters type feel that should be preserved. A bypass would not only hurt the small businesses that rely on the business that tourists and commuters provide but it would RUIN the essence of Sandy as well as force many long time residents out who will not stand to live on their property that was once a bautiful, tranguil place once there is a busy bypass in their front yard. Sandy would become a smaller version of Portland and loose the identity that it's residents value.	I enjoy Sandy how it is now. I moved to Sandy recently for what it is. I did not move there to live in a city or have a bypass in my front yard. There's a fine balance with growing Sandy and not loosing it's identity.	The city's money should stay within Sandy and enrich the lives of the people who call it home. The bypass would negatively impact the resident's who's land is in it's path, the businesses that are avoided because of it and for what? An average savings of a few minutes commute. It is not worth the impact it will have on people's lives. The money should be going to help schools, businesses, original infrastructure such as road repairs not spending \$tbillion tax payer dollars to benefit people who don't even live in Sandy

The children and parents in our community deserve better!
To leave Multnomah County Quieter than Portland (where we moved from). Affordable	not a big City and lower crime	a Highway bypass around the City	Add more and protection for Parks and Trails and Waterways
Quieter than Portiand (where we moved from). Altordable arger lot size for our house. Closer to outdoor recreation that we enjoy.	I'm still learning and exploring Sandy after 1.5years living here so I can't fairly say. We do appreciate the trails that are in place.	The downtown 'walkability' and infrastructure for local shops and eateries and goods. Keeping the 'small town' vibe but enhancing the quality and attractiveness for small biz owners.	
It what I could afford	Small town feel	I can't understand why some streets in Sandy are so narrow. New neighborhoods are designed with narrow streets. Is this to give the developers more room for houses?	If Sandy wants to boast that they are not like Portland, why is the food court named Sandlandia. Sounds a lot like Portlandia.
Easy access to recreation areas. Smaller town far enough away from Portland, but not too far.	Access to recreation areas. Controlled growth, not too fast (like it's been). Move away from the main road (traffic). Build up a side street to have outdoor electic dining experiences (outdoor, too). I recently visited Bend and there were so many places to choose from.	Need more opportunities for kids/teens. Need a community center (even if it doesn't include a pool). Covered areas with all the rain. Low cost things to do for people after school/work.	Need to have a Mayor that actually cares about the City v. using it as a platform and stepping stone.
At the time, it was affordable and had a safe, small town feel while being close to a major city.	Walking trails, community events, liberal community values.	Traffic on the main road has gotten out of hand. More crime reported recently. Also adding more sidewalks down streets to new subdivisions (ie 211). I would also like to see at least one more liquor store option and a dispensary. A Trader Joes and Target would not be unwelcome either.	I love this town, but think if we are going to continue to grow we need more stores, more sidewalks, and better traffic solutions.
			High wage jobs need to be available in Sandy to avoid being a bedroom community with loss of
Husband grew up in Sandy.	Sandy is a small town.	Rampant development and increasing traffic is impacting our quality of life. High density has changed the traffic. I am scared to turn left onto Bluff Road from Nettie Connett	community engagement and identity.

My street Nettie Connett Drive use to be a dead end-I went to a meeting at City Hall before Nettie Connett went through and it was Re-zoned High density. It was already a done deal. Grow up here. 3rd generation Small town, grew up here.	Natural beauty. Gateway to mt hood Mountain days, community events	The highway running throw the middle.	Sandy could be a cute town. The traffic ruins it. More Artisan shops and less chain stores.
	Nothing makes Sandy special any more. Too many housing developments have increased traffic and	Update Zoning to allow for 1/2 acre or 1 acre lots. This will bring higher end homes to the area and less lower income, higher density housing. A small town can not take too many houses as the infrastructure has not been updated when it should have been. The bypass should have done years ago so it would go from one end of the business district to the other and be able to feed both ends.

where there was still plenty of outdoor activities available. We wanted to be just outside of Sandy because it was a small town with a lot to offer. The location of Sandy was also a draw (mountain, gorge, Portland)	The small town has a lot to offer. SAM was a draw when we moved, especially that it was fee. I signaled a vital town with the right priorities. SAM must remain. Sandy Mountain Festival is wonderful, the high school is beautiful. It is a very safe town. I feel safe at the park and waiking around town. That safe, small town, easy to get around by bus or foot must be preserved and enhanced.	Walkability should be improved. Availability of teen activities, whether that is disc golf in the park, enhanced skate park, a bike park, a better pizza parlor, an ice rink, a climbing facility	The housing is typically very small lots with homes that don't seem to be built to last. I would create some more livable space with larger tots and mixed used housing sprinkled in. I would also love to see the culture that is here (outdoor, athletic, adventurer) embraced in more available opportunities.

My parents moved me here in the 90s. Good deal on new house	The now mostly erased historical buildings with iconic western architecture, and the now mostly gone "small town" community feel. Nothina comes to mind	I would love to lessen traffic through town, improve our aging school buildings, and bring businesses to the downtown that people actually want to visit that aren't head shops or bars. Better restaurants, more art shoos, more ambiance.	Less people, less traffic.
When I came to Sandy it was the small-town feel	We'l a lot of the reasons that I moved here are no longer intact or available, no public pool, schools are a mess and the City is crowded and the cost to live here is much increased. It is better than other places but the streets and planning have not keep up. Lots of car-kicking from the wastewater issue to the domestic water and the transportation. We ney indeed to work to preserve the community's feelings and I would say we need to move on the pool and the purchase of Cader Ridge school	Let's build and fund a public water facility including the ill-maintained pool. Yes, this will lake money but investment in the community. Not everyone can or wants to use the Athletic Cub pool and maybe a City or third-party operated pool would give them some competition, they have very few open hours for family swims and can not serve the entire community. The Baily Meadows sub-division - The Developer should have had built the road, we must be better

These facilities could have been used but they have been very underutilized. For example, the City has opened the school for a Daycare Center operated via contract and keep the property being used.	the City dropped the ball in not being prepared. This cost the tax papers money that truly benefited the developer. The existing development should never be allowed without another access or egress point. That was very obvious during the Wild Land Fire scare.	See above

Flow of traffic. Bypass is needed.	Q4 Is there anything else you want to share about the future of Sandy?
Relocated family for work and better schooling for our children.	Small city providing big city transportation. Work on infrastructure and bypass for less traffic for residents.	We could benefit from a community center available for Sandy residents through parks and recreation to offer swimming, workout facilities and fun activities for all ages. This could be offered for lower costs and would attract a larger user base. It would help our community to be healthier and come together to make a better future for all.	We need to support our law enforcement officers and all of our first responders. We need more officers to protect our rapidly growing community and neighborhoods. The ratio of police to population needs to reflect our needs as we grow. Our call loads for officers is very high.

I Why did you chose to live in Sandy?	Q2 What makes Sandy special today? What should we strive to preserve or enhance?	Q3 What about Sandy would you like to change in the future? What can improve?	Q4 Is there anything else you want to share about the future of Sandy?
		I want to see Santy become that quinky, billique destination location. A town that a actually on the map, where people want to make a standalone trip to Think Bend, Hood River, etc. Things to do, places to stay, art/shows to see, local business shopping, quality restaurants and nightlife that actually draw people from outside of townas opposed to the passthrough town Sandy sadiy is.	
		In reality, people come to Sandy on their way to something, and they only stop out of necessity. We've got gas stations, grocery stores, fast food, places that sell forest/snow passesand that's really it. People pass by, stop for one of those things, then continue on.	
		We could, however, be a town that offers a "basecamp" to the mountain, where people actually stop and stay. If we want that, we need attractive things, and we need an attractive appearance.	
		Let's start with appearances, vibe, etc. Right now we have a downtown strip with 100 crosswalk ramps, but hardly any crosswalks. Literally ramps out into traffic. We have sidewalks, sometimes. Walking around the neighborhoods you night have a sidewalk on your side of the street, and it might suddenly end. Or cars might be parked on it, making you walk around into the street. Or giant poles and mail boxes might block the way. I can think of a couple stretches of roadway that routinely have dog poop scattered across the sidewalk and street.	
		Continuing with appearances, there's literally been a time I've had to field questions about oral sex from my child after he read a marquee sign on the main roadway through town (Gateway). I've lost count of the amount of times my child has had to read the word' Tuck (something)" on stickers, flags, etc that are attached to the back of stretelparking signs in front of his school, plastered on the backs of hundreds of vehicles, or routinely flown on a truck parked on the main roadway by the shell station. I don't care what your political beliefs are: these are hornible appearances that have almost become a staple of Sandy. What a place to raise your kids, huh?	
		Appearances include safety as well, especially for walkability. We've got a downtown speed limit of 25 MPH, but nearly no enforcement. Yes, there's sometimes a police car parked by the museum that's not enforcement. The speed limit actually changes to 25 MPH east of the police station, yet cars don't stop driving 40+ until Meining, if even then. Add to that the lack of crosswalks and it makes for a very uncomfortable, unsafe walking experience. It's also great that you can hear at least two or three actual train horns mounted on pickup trucks per day from raging drivers up and down the strip. I can even hear them from inside my house.	
		Two out of three of our schools look abandoned/condemned. My child goes to Sandy Grade, and I fear for his middle school experience. That building looks like it might actually collapse. Both of those schools 'lawno scillate between overgrown with weeds, or just dead (usually with weeds sill). We have no pride in our public spaces, and although the education quality is pretty decent, I feel like I'm dropping my child off at an abandoned building. That really makes me sad. His playground sucks, just to be honest, and it's fenced off so he can't even play there after school or on the weekneds.	
		Let's taik about attractions. We don't have attractive restaurants/bars, we've got a handful of politically charged dive bars and dines. There's a couple decent places to eat, like Antfarm, Redshed, Thai Hone, Wall Street, food cartsbut none of those options are capable of drawing anyone outside of the area. Any time I want a fancy date or have a special occasion I have to leave town. That sucks. The beer den incir, Im happy they're doing well. Hope the creep place survives.	
		We have hardly any non-chain store shopping options, so aside from grabbing supplies from a grocery store, no one stops here to shop.	
		How about parks and other attractions? Well, we have a really nice trail at Tickle Creek. There are a couple nice parks on the south side of town, like the splash pad. Meinig park is definitely unique and beautiful, but m concerned with how long that type of wooden play structure can be maintained. I'm also concerned with the homeless people staying on the stage, which sadly doesn't ever get used.	
		North side parks, however? There really aren't any. We have the skate park, which could be great. It COULD be a destination that actually draws visitors. But it's old and run down, and it's kind of on the smaller side. Estacada of all places has a 10 knicer skatepark than Sandy Or Battle Ground, even!	
		We have dozens of acres behind that old middle school (another abandoned looking building), but no plans to better the community with them. Or maybe a couple pipe dreams, but come on: without a serious commitment to improving this town, those plans aren't gonna happen. Look at our pool! Also an abandoned looking buildingwe've got a mayor who loves to talk about fixing that pool at election time, but no actions ever come from that.	I WANT Sandy to be a nice place. I wanted to raise my kids here. Truth be told, Sandy's a run down bedroom community with traffic problems looking for more revenue by adding fields of suburbs. That not the Sandy I though It was moving to. That's not a place I'm proud of, but's not too late. We can
od access to Portland and Mt Hood.	Sandy has potential, that's what makes it special. I think Sandy wants to become a destination town, where someone outside might have a reason to visit, but it seems to be falling into the generic bedroom community model so many other cities have chosen.	So the north side of town has an old skate park, a vacant field, a run down track, an poor quality, fenced off elementary school playground, some broken down basketball/tennis courts at the middle school, and that's about it.	change the future of this town. We have what it takes to be a Bend or Hood River. This survey gives me a little hope, but I fear we're just gonna get stuck with that "Pioneer Glory" that seems to be all around us.

,	The small town feel. We need to keep that and stav away from being a part of METRO!!		I was born and raise in Portland and always loved Sandy when going Skiing and snowboarding. We need to make this a destination towniski town without being part of metro and their politics. We also need to invest into our parks. I was up in Vancouver the other day at Dakata dog park and skate park . Wow what an amazing park. Our dog parks are really sad for a town our size. The skatepark is donacrous and rouch .And what about the cool? We kid needs to learn to swim!
we lived in this area my entire life, which I am now 40. coses to live here for various reasons. 1. It is an easy K commute to the actual Portland Metro area when ny industries and vast amounts of jobs exist. 2. Low ulation (or used to be). Sand y has a low population, ch I find I like. This brings a more sense of community people can experience in large clies. As more asset, this sense of community dissipates. 3. It is a utiful area that is not completely riddled with row ness and minimal.	Sandy is the Gateway to Mt. Hood. The natural beauty of Sandy, makes it special. Being a smaller town next to a large metro area one can also escape the hustle of a large city can bring.	I think overall Sandy should maintain the small quaint town it currently is or was 20 years ago and limit any future developments planned. There is nothing special about taking a beautiful minimally developed community and and ridding it with thousands of houses and developments to line the pockets of a few individuals. Example: The Happy Valley area 30 years ago was a amazing community full of trees and green valleys. Now Happy Valley hare 30 years ago was a amazing houses. If Sandy residents do not change directions of the trajectory and limit developments, our area will lose what makes Sandy special and will become like Happy Valley. Sandy should focus on being the last stop before people head to Mt. Hood and conserve the natural beauty. Commerce in Sandy

there was a lot of community involvement and we felt very	Honestly, the only positive thing I can say about Sandy now is that it's not Portland or Gresham. Very sad, but honestly the truth. My husband feels the same way. After all the growth in Sandy and the traffic that has come with it, our adult children have moved away and have no desire to live here.	The traffic is terrible. I don't know what the solution is but I live on Dubarko and with all the housing developments and apartments going in, it has ruined our neighborhood. The loud and speeding traffic is dealening within my own home. I cannot even concentrate from all the traffic noise. It's even more unfortunate that these housing developments are just in the early stages. As these developments progress, this road will be more of a nightnare and very dangerous. My firends and neighbors who have lived in this community for decades are public up to the moving. They are hardworking, honest, amazing people that this community for decades are public and will continue to lose. I go to the grocery store now without carrying a pusse and being on high last as armay of the people who have moved in to this community have tilled the police logs with their illegal activity. I was told many years ago at a planning commission meeting, and this may not be true, that the only way to sid down building would be if the school district requested a moratorium on building. At the very LEAST we need to have the proper infrastructure and school capacity so that the growth does not overshoot these capacities. At the rate that the city is growing. The afraid we could be in that situation soon. There's no way to reverse the damage once it is done. Developers (all of which make plenty of morey) need to be paying handsomely into a fund that will be used for a Sandy Dypass - and not a bypass that is just routed through existing neighborhoods. Most of the SFR has very small yards with not much room for gardens, swing sets, etc.	We need to have a variety and a BALANCE of SFR, low, medium and high density. We are being forced by legislature to increase densities when we ALREADY zoned for higher densities. Now in this process, we need to recapture that balance in favor of maintaining SFR homes for families that want yard for their kids to play in. We need larger minimum lot sizes. We need to require that duplexes have common walls (gioned). Two separate homes on a lot are not a duplex.

We love the small town character of Sandy. We love living close to the mountain, and all of the history of the area.	Sandy has so much potential! I feel like its going to be important to emphasize the small town aspect of Sandy, including extending the reduced speed limits. I think it's a shame that so many people drive through town without even stooring.	Small businesses in a thriving uptown are essential, I believe, and creating access to them! Some small towns really do a good job of showing their own style. In every case, the speed limit plays a part in illustrating that personality. Sandy should emphasize a feeling of community for those who live here too. Sidewalks and crosswalks and buses are essential, as are parks, and community gathering places. Monitor the speed of traffic going through town, it is very difficult to shop in downtown and merge onto HWy 26, as cars speed through our town. Sandy needs to become more diverse and inclusive. It feels like a very unwelcoming community if you're not white, conservative, neurotypical, or straight. A lot needs to improve, especially in the schools. Traffic flow Increase access to high speed internet. It would be great to see the town accommodate more diverse lifestyles like plant based / vegan / healthy. There's so much fast flood available here and we would speed more money in the town instead of spending outside of it if there were more health-focused services. Improve traffic, increase law enforcement funding.	they are expanded? We would also like to see the community pool opened, as this seems like a priority before expansic of trail system. I'm considering moving because of the direction Sandy is headed. Need recreation that's all inclusive and affordable I think it could be great to host more pop-up events here that could pull people from Gresham and surrounding areas. The lot that the Farmers Market is in is a great spot for local events and if there were a more diverse calendar of events we would definitely attend. Right now we go outside of San to attend most events of interest.
My husband and I loved how close Sandy is to the mountain and fet like it was a small community that we felt would meet our needs as we get closer to retirement. Grew up in Estacada, so I loved the small town feel and I hought I was more progressive. Born and raised here Rural area For its location - close to Mt. Hood and Columbia Gorge recreation, but also city accessible I grew up in Sandy. I enjoy the small town feel. Get away from suburbia, crowded streets, traffic and liberal local government policies. We love the mountains, fishing and hunting. We wanted land that offered us to close proximity to these things as well as being quiet with	needs. We just wish the traffic was monitored more closely. We live off Dubarko and walk our dog and grand daughter daily. Cars speed hornbly on Dubarko and trucks with loud horns that beep just for fun. We have never seen any police monitor the speeding cars. The beautiful nature and small businesses. Caring people Sense of community, small town feel The historical feel and attention to detail. I love the murals and the feel of downtown. It would be great to see some more modern attractions in the downtown like restaurants and shops. We love the food truck lott Tickk Creek and Sandy River Trails right in the backyard also attracted us to here. Preserve the small town feel, keep the natural look. I love that I see our tax dollars at work by Sandy government creating rules that preserve the beauty of Sandy. We don't have a homeless problem because it's not tolerated, not in a non-caring way, but understanding that this will not be allowed. Most of the buildings have a mountain type theme which I find beautiful. There's no pot shops. The police seem realistic and care about residents. I think Sandy should strive to preserve the things I mentioned above. This can be done by keeping true/crules in place that dom allow for homelessness, sleeping on streets, public individion, etc Keeping rules in place that make businesses hold to certain ascettes that benefit Sandy, the mountain town. Limit housing by keeping to bis larve and ver much limit any subdivisions. It think Sandy could	Monitor the speed of traffic going through town.
