THE PLAN

Sandy's Plan was originally acknowledged by the Department of Land Conservation and Development (DLCD) in 1982. The preparation of this Policy document, along with a separate "Background Inventory" document and implementing ordinances and maps, has been partially funded through a grant from the Transportation and Growth Management Program (TGM), a joint program of the Oregon Department of Transportation and the Department of Land Conservation and Development.

The Comprehensive Plan is a set of maps, policies, and implementing measures affecting land use within the city limits, and ultimately within the Urban Growth Boundary. The Plan is a guide for both public officials and the general public to define the direction, quality and quantity of future development redevelopment and to evaluate decisions and weigh the possible effects on the future of the community.
