Introduction

The Public Library Division (PLD) of the Oregon Library Association (OLA), in association with the State Library of Oregon, has assumed responsibility for the maintenance of the Standards for Oregon Public Libraries (Standards) and therefore has regularly convened committees of library professionals from small, medium, and large public libraries across Oregon to continually update the Standards.

Under the direction and leadership of the Executive Board of the Public Library Division of the Oregon Library Association, the 2017-18 Standards Committee created this document to assess and guide the development of quality library service for all Oregonians. It is the intention of the committee to provide a relevant and useful tool for library professionals, boards of directors, and other library stakeholders to not only manage the resources entrusted to them under state law, but also to provide assistance in strategic planning regardless of the current level of services offered.

The Standards Committee recognizes the diversity of libraries across the state and developed these Standards to allow for the strength this diversity creates, and the adaptability it requires. By meeting these Standards, a library establishes a baseline from which it can strive for excellence. To better support innovation in library services, the Standards establish a starting point that library boards and staff can use to direct local long-range planning efforts.

The Standards Committee reviews the standards annually and encourages feedback from library directors and managers. The committee also invites Oregon librarians to apply to serve on the Standards Committee. To offer feedback or apply, please contact the Public Library Division of OLA.

How to Use These Standards

As an aid in planning, the Standards checklists provide the means by which library stakeholders can discuss and determine how a library addresses or should address each standard category.

Additionally, the Public Library Division has determined 11 minimum requirements for a public library in the state of Oregon (see the next section, “Minimum Requirements”). The goal is to provide a consistent level of service to fulfill at least the basic role of a public library. These proposed minimums may be implemented in the future as Oregon Administrative Rules as part of updating the legal definition of a “public library” according to Oregon Revised Statutes (ORS) 357.400 (3)¹.

¹ ORS 357.400, https://www.oregonlegislature.gov/bills_laws/ors/ors357.html or <https://www.oregonlaws.org/ors/357.400>

These Standards are not intended to be a one-size-fits-all set of elements that all libraries must meet. Some libraries now plan and carry out activities that exceed many or all of those listed, while others may be constrained by resources or circumstances in ways that make achieving many of the basic ones difficult. Every community is different. What is important is that the director, staff, board, and community constantly review where you are, where you want to be, and what it will take to get there. These checklists are intended to provide guidance for that journey.

Process

The Public Library Division recognizes that there are many ways to achieve excellence. The Standards listed are a means, and not necessarily an end. The format of this document is designed to help you clarify when you have met a Standard with the use of Indicators and Attributes.

In each section, the **standard** states the ultimate **outcome** or condition for the work being done that is expected when most or all of the indicators exist. For example, “The community has access to free library services and is confident in the effective leadership of the library, including the library’s commitment to intellectual freedom for community members.” The standard typically indicates **why** a library would take on a set of activities, and typically reflects a benefit to library patrons or the wider community.

The **indicator** is **evidence** that the standard is being met. When most or all of the indicators are true, the outcome stated by the standard will be realized. For example, “The community is confident that its library is overseen by a library board and staff who are responsible public officials and stewards.” The indicator often specifies **what** is witnessed as a result of a set of activities.

The **attribute** is one of the tangible **activities** that lead to an indicator being true. When most or all of the attributes are performed, the indicator is witnessed. “The library board of directors meets regularly and has adopted written bylaws or governance policies.” The attribute typically is **how** an initiative is being carried out, and is typically measurable or otherwise verifiable.

Additionally, each attribute is categorized by achievement levels:

- **Essential:** the basic level; library programs, services, and other aspects are adequate to meet the needs of its community.
- **Enhanced:** this level recognizes programs, services, and other aspects of a public library that stand out compared to their peers.
- **Exemplary:** this level recognizes public libraries for being state and national leaders.

Achievement of attributes in the three levels prove the extent to which that particular standard is being met. For each attribute simply check the Yes or No box if your library meets that attribute. For the purposes of assessment and planning, there is no “grade.” However, **every library should strive to meet most, if not all, the Essential attributes for each Indicator for each Standard.**

For example, here’s how one library might complete the checklist from Section 4, Services and Programs Standard:

Indicator: The library provides services free of charge to everyone, as defined by written policies.	Y	N
Essential		
<ul style="list-style-type: none"> • The library offers services that include a circulating collection, public technology, and programming for all ages. 	Y	
<ul style="list-style-type: none"> • The library provides services that meet the needs of the community’s demographics including special populations. 	Y	
Enhanced		
<ul style="list-style-type: none"> • The library facilitates or serves as custodian of local history. 		N

Exemplary		
<ul style="list-style-type: none"> The library provides notary services. 		N
<ul style="list-style-type: none"> The library provides resources and services to support local economic development. 	Y	

Review the items marked No, and determine whether these are attributes that would be appropriate and beneficial to add, as dictated by your strategic plan, available resources, and the needs of your patrons and the community.

Each indicator can have a list of essential (always), enhanced and exemplary attributes (sometimes). For those indicators which do not have enhanced or exemplary attributes listed, feel free to use those spaces for your library's examples of current or future goals.

This Standards document includes an appendix with a glossary of terms and list of resources for further research.

Minimum requirements for Oregon public libraries

The Public Library Division has determined the following minimum requirements for a legally established public library in the state of Oregon. The goal is for all libraries to provide a consistent level of service, fulfilling at least the basic role of a public library.

The current legal definition of a public library according to [ORS 357.400](#) (3)² (<https://www.oregonlaws.org/ors/357.400>):

“Public library” or “public library system” means a public agency responsible for providing and making accessible to all residents of a local government unit library and information services suitable to persons of all ages.

Please note that OLA is looking to update the definition of a “public library.” If the definition is successfully updated, these proposed minimums may be introduced in the 2019 legislative session as Oregon Administrative Rules.

STANDARD: The library provides these basic services free of charge to everyone in their service area.

As a community commons, library facilities should provide the physical space where Oregonians can connect to people, ideas, and information. Library facilities should be welcoming, comfortable, efficient, and allow for flexibility of space, service, growth, and community priorities. Each library should consider and reflect its own unique community. OLA encourages library leaders to consider excellence in facilities by looking at best practices and the facilities of those libraries that succeed at providing, meeting, and surpassing community needs. These OLA Public Library District Facilities Standards address the library facilities as a community anchor, library design, and facilities assessment and long-term planning.

Please note: Some topics relating to facilities are addressed in other sections of this Standards document, such as Governance and Technology. Please see those sections to ensure all aspect of a facilities review occurs.

Appendix B: Code of Ethics of the American Library Association

As members of the American Library Association, we recognize the importance of codifying and making known to the profession and to the general public the ethical principles that guide the work of librarians, other professionals providing information services, library trustees and library staffs.

Ethical dilemmas occur when values are in conflict. The American Library Association Code of Ethics states the values to which we are committed, and embodies the ethical responsibilities of the profession in this changing information environment.

We significantly influence or control the selection, organization, preservation, and dissemination of information. In a political system grounded in an informed citizenry, we are members of a profession explicitly committed to intellectual freedom and the freedom of access to information. We have a special obligation to ensure the free flow of information and ideas to present and future generations.

The principles of this Code are expressed in broad statements to guide ethical decision making. These statements provide a framework; they cannot and do not dictate conduct to cover particular situations.

- I. We provide the highest level of service to all library users through appropriate and usefully organized resources; equitable service policies; equitable access; and accurate, unbiased, and courteous responses to all requests.
- II. We uphold the principles of intellectual freedom and resist all efforts to censor library resources.
- III. We protect each library user's right to privacy and confidentiality with respect to information sought or received and resources consulted, borrowed, acquired or transmitted.
- IV. We recognize and respect intellectual property rights.
- V. We treat co-workers and other colleagues with respect, fairness and good faith, and advocate conditions of employment that safeguard the rights and welfare of all employees of our institutions.
- VI. We do not advance private interests at the expense of library users, colleagues, or our employing institutions.

- VII. We distinguish between our personal convictions and professional duties and do not allow our personal beliefs to interfere with fair representation of the aims of our institutions or the provision of access to their information resources.
- VIII. We strive for excellence in the profession by maintaining and enhancing our own knowledge and skills, by encouraging the professional development of co-workers, and by fostering the aspirations of potential members of the profession.

Acknowledgments

Ensuring that the Public Library Standards document reflects current best practices for public libraries and is well-organized and easy to use is a commitment made by OLA's Public Library Division to Oregon's public libraries. This assurance is possible because of the hard work of several people, whose passion for public libraries is evidenced through their dedication to improving the Standards.

Continuity through different versions of the Standards is possible because of the wonderful people at the State Library of Oregon and several past and current members of the Public Library Division who all want to see that the very best document possible gets into the hands of Oregon library directors.
