

# PAST

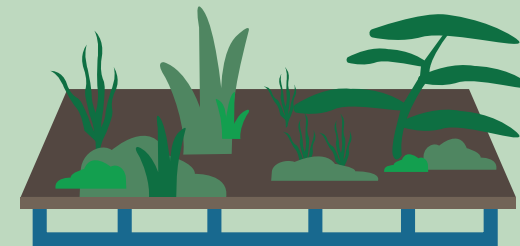

**RAIN**

**WASTEWATER**

**LOCAL NURSERY**

Discharge May - Oct

**COLLECTION SYSTEM**

! Rainwater has found its way into the aging collection system

! **LEAKY PIPES**

! **BOTTLENECK**

There are strict limits on discharge into the Clackamas River Basin. We are at the limit and cannot accommodate additional growth without a new wastewater treatment solution.

**WATER TREATMENT PLANT**

The plant is designed to treat wastewater, but additional groundwater and rainwater can overwhelm the system. This problem has been further exacerbated by aging mechanical equipment.

**TICKLE CREEK**

Discharge Nov - Apr

! **GROUNDWATER**

Groundwater has found its way into the aging collection system

**SANDY**  
CLEAN WATERS
