

**ADDENDUM NO. 1  
TO THE REQUEST FOR PROPOSAL  
DOCUMENTS FOR PROJECT NO. SDWRP-07-23**

**CITY OF SANDY**

**ENGINEERING SERVICES FOR PORTLAND TO SANDY WATER FILTRATION PLANT TRANSMISSION SYSTEM**

This addendum, issued on the **10th day of August 2023**, affects the request for proposal documents for the **Engineering Services for Portland to Sandy Water Filtration Plant Transmission System Project No. SDWRP-07-23** and shall be deemed an integral part of the above referenced documents.

**QUESTIONS AND CLARIFICATIONS**

**QUESTION:**

Will the Consultant team be preparing and submitting application(s) for Corps/DSL permit?

**ANSWER:**

Task 4.2.i on RFP page 7 states:

*"It is not anticipated that public education or outreach or environmental permitting beyond that necessary to secure US Army Corp and Department of State Land approval for wetland/stream crossing will be required."*

The Consultant team shall apply for the Corps/DSL permit if it is determined that this permit is required. With wetland delineations currently underway, a wetland delineation report anticipated to be completed in September. At that time, it can be determined if a Corps/DSL permit is required, and this work can be included in the scope of work for the selected consultant in September.

**QUESTION:**

Will services needed for property and easement acquisitions (legal descriptions, outreach, appraisal, etc.) be provided by the City, or will the Consultant team provide those services?

**ANSWER:**

The Consultant team will not be requested to provide easement acquisition services.
