

**NEXT ADVENTURE**  
*Inform · Outfit · Excite*

Hello Kelly,

I am writing to formally request an extension on the design review for our project at 38454 Pioneer Blvd.

There have been a variety of situations beyond our control that prevented us from breaking ground this year. The estimated cost of the project tripled from \$400K to \$1.2M due to the combination of supply chain problems, material cost increases, and the limited availability of contract workers. On top of that, due to the seasonal nature of our winter sports business, we are limited to a very narrow timeframe (April) to break ground.

We continue to be excited about expanding our operations in Sandy and becoming an even more dynamic part of this growing community.

Thank you for your consideration,

--Deek
